College of Computing And Information  
Sciences  
A Research Report On How Students Travel  
To Lecture Rooms

MULONGO AKIM  
12/U/9097/EVE 212010754

May 19, 2017

## **1 Introduction**

### **1.1 Background**

Everyday of the week in Makerere University lectures take place in all colleges. These are attended to by various respective students and lecturers from their respective residences.

### **1.2 Problem Statement**

The research was defined to find out how many students travel to their lecture rooms in time and the challenges they encounter on their way to the lecture rooms. The study further looks at how students overcome the challenges.

## **1.3 Aim and objectives**

### **1.3.1 General Objective**

To find out the different ways Students of Makerere University travel to their lecture rooms.

### **1.3.2 Specific Objectives**

To find out the means of transport students use to travel to their lecture rooms.

## **2 Research scope**

The research was carried out from within the University on the students of several colleges.

## **3 Methodology**

The research was designed according to the students convenience and using electronic methods a questionnaire was generated and stored on a smartphone using an application. The forms collected were directly synced with the Google AppEngine cloud so that it can be accessed worldwide.

## **4 Research Significance.**

Many of the challenges I came across that the students faced have been tried to be solved by the University Administration.

## **5 Conclusion**

As a conclusion, I found out that the Students do not see these challenges as real challenges but rather they see them as part of life which has kept them enduring and pushing on.
